Title: Baked Cheddar Toast  
Categories: Breads, Cheese, Eggs, Main dish  
Servings: 6

- 1 c Heavy Or Whipping Cream
- 1/2 ts Nutmeg
- 4 Eggs; Lg, well Beaten
- 1 c Cheddar Cheese; Md, Shredded
- 1/4 ts white Pepper
- 12 Bread Slices; white

In the top of a double boiler, combine the cream, cheddar, white pepper, and nutmeg. Stir over hot water until the cheese melts and the mixture is well blended. Remove from the heat and cool to lukewarm. Generously butter a large baking sheet and set aside. Cut the bread slices diagonally and dip each triangle into the cheddar mixture. Place 1/2-inch apart on the baking sheet and bake until browned and bubbly, about 15 minutes. Serve hot.

Title: French Toast Cheddar Sandwiches  
Categories: Breads, Cheese, Eggs, Main dish, Sandwiches  
Servings: 4

- 2 Eggs; Lg
- 1/2 ts Salt
- Mustard; Prepared
- 3 tb Butter
- 1/3 c Milk Or Light Cream
- 8 white Bread; Slices
- 4 Cheddar Cheese; Thick,slices

Set out a heavy skillet or cast iron griddle. Beat the eggs slightly in a pie tin or shallow bowl and add the milk or cream and salt, set aside. Spread the bread slices out on a flat working surface. Spread one side of four slices of bread lightly with the prepared mustard. Top each with a slice of cheddar cheese. Butter the remaining four slices of bread and top each cheese slice with bread, butter side down. Heat the butter in the skillet or on the griddle. Carefully dip each sandwich into the egg mixture, coating both sides. Allow the excess egg mixture to drain back into the bowl. Dip only as many sandwiches as will lie flat in the skillet or griddle. Cook over low heat until browned. Turn and brown the other sides. Repeat for the remaining sandwiches and if necessary, add more butter to the skillet or griddle to prevent sticking. Or you can place the sandwiches, after dipping, on a well greased baking sheet and brown in the oven at 450 degrees F. for 8 to 10 minutes. Serve hot.

Title: Stuffed Rolls  
Categories: Breads, Cheese, Main dish, Sandwiches, Vegetables  
Servings: 6

- 16 oz Cheddar; Sharp, Shredded
- 2 Green Bell Peppers; Md
- 6 oz Tomato Sauce; \*
- 8 oz Green Olives; Stuffed, \*
- 12 French Rolls; Large
- 1 Onion; Md.

\* These are approximate sizes. Recipe called for 1 small jar of stuffed olives and 1 can of tomato sauce. It should be to your taste.

+++++  
Cut the tops off of the rolls and hollow them out leaving a thin shell. Grind all of the ingredients and bread in a meat grinder or food processor and stuff back into the rolls. Place the tops back on the rolls and secure with tooth picks. Bake on an ungreased cookie sheet at 350 degrees F. for about 45 minutes. Serve Hot.

Title: Poppin' Fresh Barbe Cups  
Categories: Breads, Cheese, Main dish, Meats, Sandwiches  
Servings: 6

3/4 lb Ground Beef; Lean                    1 tb Onion; Minced  
2 tb Brown Sugar                            12 Biscuits; \*  
1/2 c Barbecue Sauce; \*\*                   3/4 c Cheddar; Sharp, Shredded

\* Use 1 8-oz tube of store bought biscuits, or your favorite 12 biscuit recipe. \*\* Use store bought sauce or your favorite recipe.

++++  
In a skillet brown the ground beef and then drain off the excess fat. Add the bbq sauce, onion and brown sugar and set aside. Separate the biscuit dough into 12 pieces and place one in each of 12 ungreased muffin cups, pressing the dough up the sides to the edge of the cup. Spoon the mixture into the cups and sprinkle with the shredded Cheddar Cheese. Bake in a preheated 400 degrees F. oven for 12 minutes. Serve hot. VARIATIONS: Use 1 13-oz can of chili beans in place of the meat mixture (or 1 13-oz can of baked beans, and frankfurters or hot dogs that have been cut into pieces) in place of the meat mixture. You can also add green bell pepper or a hot pepper to the above recipe with good results.

Title: Cheddar Crackers  
Categories: Breads, Crackers, Cheese  
Servings: 6

1/2 c Butter Or Margarine                    1 1/2 c Unbleached Flour; sifted  
1/2 ts Salt                                    1 ts Baking Powder  
1 ds Cayenne Pepper                        2 c Cheddar; Extra Sharp, \*

\* The Extra Sharp Cheddar Cheese should be finely grated.  
++++  
Stir the dry ingredients into a bowl and then cut in the butter to resemble cornmeal. Blend in the cheddar cheese with a fork until well blended. Mix in the remaining ingredients and shape into 1 1/2 to 2-inch rolls. Chill for 30 to 40 minutes in the refrigerator and then slice each roll into slices about 1/4-inch thick. Bake on an ungreased cookie sheet at 400 degrees F for about 10 minutes. Remove from cookie sheet and let cool. Store the cooled crackers in airtight containers in a cool place. They will keep for several weeks this way and if you freeze them, they will last indefinitely.

Title: Cheddar Fans  
Categories: Breads, Cheese, Quickbreads  
Servings: 4

5 oz Cheddar; Sharp, Grated	2 c Unbleached Flour; Sifted
1 tb Baking Powder	1 ts Salt
1/2 c Butter Or Shortening Butter; Softened	1/2 c Milk Butter; Melted

Grease the bottoms of 12 muffin pan cups. Grate the cheese into a bowl, if not already grated and set aside. Sift the flour, baking powder and salt into a bowl. Cut in the shortening with a pastry blender or two knives, until the mixture resembles coarse corn meal. Make a well in the center of the mixture and add the milk all at once. Stir with a fork until the dough forms a ball. Gently form the dough into a ball and put on a lightly floured surface. Knead it lightly with the fingertips 10 or 15 times. Roll the dough into a 12 X 10-inch rectangle about 1/4-inch thick. Cut into 5 strips and spread with the softened butter. Sprinkle four strips with the grated cheddar cheese and stack the four on top of one another and top with the fifth strip. Cut into 12 equal pieces and place on end in the muffin cups. Brush the tops of the rolls with the melted butter. Bake at 450 degrees F. for 10 to 15 minutes or until the biscuits are golden brown. Serve hot with butter. Makes 1 dozen Cheddar Fans.

Title: Little Cheddar Biscuits  
Categories: Breads, Cheese, Quickbreads  
Servings: 8

2 c Unbleached Flour	1 ts Mustard; Dry
1 ts Paprika	1/4 ts Baking Powder
1 c Butter; Room Temperature	10 oz Cheddar; Sharp, Grated
1 ts Worcestershire Sauce	

Combine the flour, dry mustard, paprika and baking powder in a medium bowl. Beat the butter, either by hand or with an electric mixer at medium speed, until light and fluffy. Slowly beat in the cheddar cheese and Worcestershire sauce. Gradually add the flour mixture, stirring with a fork, until well blended. On a lightly floured surface, shape the dough into a long roll about 1 3/4-inches in diameter. Wrap in plastic wrap or foil. Place on a platter and refrigerate for at least 2 hours, better overnight. Preheat the oven to 325 degrees F. Slice the dough about 1/3 inch thick. With your hands, roll each slice into a ball. Flatten slightly and place on an ungreased baking sheet about 2 inches apart. Bake 8 minutes in the preheated oven. Biscuits will only brown slightly on the bottom.

Title: Cheddar Bread Ring  
 Categories: Cheese, Breads, Yeast bread  
 Servings: 4

2 3/4 c Bread Flour	2 tb Sugar; Granulated
1 pk Active Dry Yeast; OR	1 tb Active Dry Yeast; Bulk
3/4 ts Salt	1 c Milk
2 tb Butter Butter	1 1/2 c Cheddar; Sharp, Shredded

NOTE: You can use Unbleached All-Purpose flour in this recipe and up to 3 cups total.

++++  
 Combine 1 1/2 cups of the flour, the sugar, undissolved yeast and salt thoroughly in a large bowl. Heat the milk and butter together until very warm (115-125 degrees F.). Gradually add to the dry ingredients and beat at medium speed on an electric mixer for 2 minutes, scraping the bowl occasionally. Add 1/2 cup of the flour and the cheese. Beat for 2 minutes on high speed on the mixer, scraping the bowl occasionally. Stir in enough additional flour to make a stiff but light dough. Turn the dough out onto a lightly floured surface and knead until smooth and elastic, 5 to 8 minutes. Place in a greased bowl, turning once to grease the top. Cover with a dishtowel that has been soaked in hot water and then wrung out until almost dry. Let rise in a warm place until doubled in bulk, about 1 hour.

BREAD500.TXT

Punch the dough down and turn out on a lightly floured surface and shape into a 20-inch rope. Place seam side down in a buttered 6 1/2 cup ring mold, pinching the ends together. Cover and let rise in warm place until nearly doubled in bulk, about 35 to 40 minutes. Bake in a preheated 350 degree F. oven for 25 to 30 minutes. Remove from the ring mold. NOTE: For a softer crust, brush with melted butter while still hot. Crust will become crisp when cool if you do not.

Title: Golden Spoon Bread  
 Categories: Breads, Cheese, Quickbreads  
 Servings: 6

10 oz Cheddar; Sharp, Grated	2 c Milk
4 Egg Yolks; Lg	1 c Corn Meal; Yellow
1/4 c Butter	1 ts Sugar
1/2 ts Salt	4 Egg Whites; Lg

Thoroughly grease a 1 1/2-quart casserole dish. Place the cheddar in a small bowl and set aside. Scald the milk in the top of a double boiler. Meanwhile beat the egg yolks until thick and lemon-colored then set them aside. When the milk is scalded, add the corn meal very gradually, stirring constantly. Stir until the mixture thickens and becomes smooth. Remove the top of the double boiler from the simmering water and gradually add the beaten egg yolks, stirring constantly. Mix in the grated cheese, butter, sugar and salt. Beat the egg whites, in a small bowl, until round peaks are formed. Gently spread the beaten egg whites over the corn meal mixture then carefully fold together until just blended. Turn the mixture into the greased casserole dish. Bake at 375 degrees F. for 35 to 40 minutes or until a wooden pick or cake tester comes out clean when inserted in the center of the dish. Serve piping hot with butter and maple syrup or honey.

Title: Cheddar Braids  
 Categories: Breads, Cheese, Yeast bread  
 Servings: 8

BREAD500.TXT

1 c Water; Warm, 110-115 Deg. F.	1 pk Active Dry Yeast; OR
1 tb Active Dry Yeast; Bulk	3 1/2 c Unbleached Flour; *
1 ts Sugar	1 1/2 ts Salt
3/4 c Butter; Room Temperature	4 Eggs; Lg, Room Temperature
6 oz Cheddar; Extra Sharp, Diced	1 Egg; Lg
1 tb Milk	2 tb Celery Seeds

\* You can use up to 4 1/2 cups of flour in this recipe depending on the weather.

+++++

Pour the warm water into a warm bowl and add the yeast. Stir to dissolve then let stand until light and puffed, about 5 minutes. Add 1 1/2 cups of the flour, sugar and salt. Beat with an electric mixer on the lowest speed for 1 minute. Beat on medium speed for 2 minutes longer. Add the butter to the yeast mixture and beat for another 1 minute. On the lowest speed on the mixer, beat in 1 egg and 1/2 cup of flour until well blended, repeating until the 4 eggs are used up and enough flour has been added to make a soft sticky dough. Continue to beat with the mixer or by hand, until the dough is glossy and elastic and pulls away from the side of the bowl. Stir in the cheddar cheese by hand. Cover and let rise in a warm place free from drafts until doubled in bulk, about 2 1/2 to 3 hours. When the dough has doubled in bulk, punch down and place in the refrigerator for at least 5 hours or better, overnight. Remove the dough from the refrigerator. Divide in half and cover and refrigerate the second ball of dough. Knead the remaining ball of dough on a lightly floured surface until soft and pliable. Divide the dough into 3 equal parts and roll each piece into a rope 12 to 16-inches long. Braid the ropes, starting in the middle and working toward each end. Pinch the ends together so seal them. Grease a large baking sheet and place the finished braid on one side of the sheet. Repeat with the refrigerated dough. In a small bowl beat the egg and milk together. Brush the braids with the egg mixture and let the braids rise in a warm place, free from drafts, until dough in bulk, about 1 1/2 to 2 hours. Do not cover. Midway through the rising time, brush with the egg mixture again. Preheat the oven to 400 degrees F. when fully risen, brush with the egg mixture for a final time and sprinkle evenly with the celery seeds. Bake for 40 minutes in the preheated oven until a wooden skewer or pick inserted in the braid comes out dry. Remove from the oven and from the baking sheet. Cool to room temperature, on wire racks, before slicing.

Mix the starter and 2 1/2 Cups of the flour and all the water the night before you want to bake. Let stand in warm place overnight. Next morning mix in the butter with warm milk and stir in yeast until until dissolved. Add honey and when thoroughly mixed, add 2 more cups of flour, and stir in the wheat germ. Sprinkle sugar, salt, and baking soda over the mixture. Gently press into dough and mix lightly. Allow to stand from 30 to 50 minutes until mixture is bubbly. Add enough flour until the dough cleans the sides of the bowl. Then place the dough on a lightly floured board and knead 100 times or until silky mixture is developed. Form into 4 1-lb loaves, place in well-greased loaf pans 9 x 3 size. Let rise until double, about 2 to 3 hours in a warm room. Then bake in hot oven, 400 degrees F, for 20 minutes. Reduce oven temp. to 325 degrees F. and bake 20 minutes longer or until thoroughly baked. Remove from pans and place loaves on rack to cool. Butter tops of loaves to prevent hard crustyness.  Servings: 1

1/2 c	Potato, mashed	1/2 c	Potato water
1/2 c	Butter and other shortening,	1/2 c	Sugar
3 1/2 c	Flour	1 c	Yeast
	*dissolved in:	1/2 c	water, lukewarm
2	Egg, well beaten	1/2 c	Sugar
1 1/2 c	Flour		*topping:
1 c	Flour	1/2 c	Sugar
1	Egg yolk, well beaten		

Mix together the mashed potatoes, potato water, shortening and sugar. Add to this about 3 1/2 cups flour and the dissolved yeast. Set this dough aside to rise in a warm place over night. The following morning add the eggs, 1/2 cup sugar and 1 1/2 cups flour. Allow this mixture to stand in a warm place until light. Then roll out pieces 6 by 8 by 1 inch thick and place in greased oblong pans. When cakes are ready to be put into the oven, brush top of cake with melted butter. Strew over the tops of the cakes the topping mixture. This mixture should be rubbed through a coarse sieve. Bake at 400-F about 20 minutes. Title: Bara Brith (Currant Bread) welsh  
 Categories: Breads  
 Servings: 16

1/4 lb Dried fruit	4 oz Candied peel
1 pt Warm water	1/2 ts Mixed spice
2 lb Plain flour	2 ts Salt
6 oz Lard	1 oz Fresh yeast
1/2 lb Demerara sugar	2 Eggs

Oven: 450F, Gas Mark 8 for 15 minutes: 375F, Gas Mark 5 for 45 minutes. Soak the fruit and candied peel in the water with the spice. Leave to steep in a warm place and use the warm spicy, strained water to mix the dough. Sift the flour and salt and rub in the lard; cream the yeast with the sugar and a little of the spiced water; mix this into the flour, together with the eggs and use enough of the water to give a firm, yet elastic dough. Knead well, leave to rise and knock back; blend in the drained fruit and knead again. Shape the dough into loaves and set into greased 1 lb tins in a warm place to prove; bake, reducing the temperature after the first 15 minutes. Originally, in some recipes, the fruit content would have been fresh currants or blackberries. Bara Brith is often served as part of the traditional welsh tea. It can also be purchased at many of the small bakeries found throughout wales. British Cookery (BTA/BFPC)

Thinly peel the oranges, using a vegetable peeler. Cut the orange rind into thin slivers. (Reserve the oranges for another use, or eat them and enjoy.) Combine the orange rind and 1 cup of water in a 2 quart saucepan and bring to a boil, then reduce the heat, cover, and simmer for 15 minutes or until the rind is tender. Add the 1 cup of sugar and continue cooking, uncovered, until the mixture is syrupy, about 15 minutes. Cool to room temperature. Meanwhile, sift the flour, baking powder and salt together in a bowl and set aside. Cream the butter and 1/2 cup of sugar together until light and fluffy, using a electric mixer set on medium. Add the eggs and blend well. Blend in the cooled orange rind mixture. Add the dry ingredients alternately with the milk to the creamed mixture, beating well after each addition. Pour the batter into 2 greased 9 x 5 x 3-inch loaf pans. Bake in a preheated 350 degree F. oven for 50 minutes or until a cake tester or wooden pick inserted in the center comes out clean. Cool in the pans for 10 minutes before removing to wire racks to finish cooling. Wrap in aluminum foil and let stand overnight before slicing. This bread slices better when it has cooled for 24 hours.

smooth, about 3 minutes. Blend in the egg and then stir in the raisins. Gradually stir in enough of the remaining flour to make a moderately soft dough, (It will be slightly sticky and light in weight). Turn the dough out on a lightly floured surface, adding flour if needed as you knead the dough, and knead until smooth and satiny about 10 minutes. Cover the dough with the bowl and let rest for 20 minutes. Combine the 1 cup of sugar and the cinnamon, then set aside. Punch the dough down and divide in half. Roll out one half, on the floured surface, to a 14 X 7-inch rectangle. Brush with the melted butter and sprinkle with half of the cinnamon-sugar mixture. Beginning at the narrow end, roll up tightly like a jelly roll. Press the edges to seal and fold the ends under. Place in a greased 8 1/2 X 4 1/2 X 2 1/2-inch loaf pan. Repeat for the second half. Brush the tops of the loaves with the remaining butter. Cover and let rise in a warm place until doubled, about 45 minutes. Bake in a preheated 375 degree F. oven for 35 to 40 minutes or until the loaves sound hollow when tapped. Remove from the pans immediately and cool on wire racks.

Title: Easy Parker House Rolls  
 Categories: Breads, Yeast  
 Servings: 4

1 1/4 c Milk; scalded	3 ts Sugar
2 ts Butter or regular margarine	3/4 ts Salt
2 pk Active dry yeast; or	2 ts Active dry yeast; bulk
1/4 c Lukewarm water; 110 deg. f.	4 1/2 c Unbleached flour
2 ts Butter or margarine; melted	

Pour the scalded milk over the sugar, 2 tbs of butter and salt in a mixing bowl. Cool to lukewarm. Sprinkle the yeast over the lukewarm water and stir to dissolve. Add 2 cups of flour, and the yeast mixture to the milk mixture. Beat, with an electric mixer on medium speed, until smooth, about 2 minutes. Gradually add enough of the remaining flour to make a soft dough, then cover and let rest for 15 minutes. Knead the dough a few times on a lightly floured surface until it is no longer sticky and roll out to a 1/2-inch thickness. Cut into rounds, using a floured biscuit cutter. Brush the rounds with the remaining 2 Tbs of melted butter and crease each roll in the center with the dull edge of a knife. Fold the rolls over on the crease and press the edges together lightly. Place on greased baking sheets and cover. Let rise in a warm place until almost doubled, about 30 minutes. Bake in a preheated 400 degree F. oven for 10 minutes or until golden brown. Remove from the baking sheets and cool on wire racks. NOTE: These rolls are almost a must at the Holiday dinners coming up shortly. Restaurants and most older cooks make it a tradition to serve them.

NOTE: The amount of flour can vary from 2 1/4 to 2 3/4 cups depending on Stir 1 3/4 cups of the whole wheat flour, sugar, undissolved yeast, salt and cinnamon together in a large mixing bowl. Heat the water and butter in a saucepan over low heat to very warm (120-130 degrees F.). Remove from the heat and stir in the buttermilk. Add to the flour-yeast mixture and beat, with an electric mixer on medium speed, until smooth, about 2 minutes. Add the eggs and beat an additional 2 minutes, then stir in the raisins. Gradually add the remaining 1/4 cup of whole wheat flour and enough white flour to make a stiff but light dough. (Heaviness indicates too much flour and the bread will not rise correctly.) Let rest for 5 minutes. Turn the dough out onto a lightly floured surface and knead until smooth, about 5 to 8 minutes. Cover with the mixing bowl and let rest for 30 minutes. Punch the dough down and divide in half. Let rest 10 minutes, then roll each half to a 12 x 7-inch rectangle. Beginning at the 7-inch side, roll up tightly like a jelly roll and seal the edges. Tuck the ends under to form rounded edges, (the loaf should be about 7 x 3-inches in size). Place on a greased baking sheet. Brush with oil and repeat for the second batch of dough. Cover and let rise in a warm place until almost doubled, about 30 minutes. Bake in a preheated 375 degree F. oven for 25 minutes or until the loaves sound hollow when tapped.  Categories: Cajun, Breads  
 Servings: 48

2 c Cornmeal	Ground cayenne pepper
1 c Plain flour	2 Eggs, beaten
1 ts Baking powder	1 c Buttermilk
1 ts Salt	1 c Green onion, finely chopped
1/2 ts Soda	2 tb Bacon drippings, hot
1/2 c Parsley, finely chopped	1/2 ts Garlic powder (to taste)
Deep fat for frying	

Combine all dry ingredients. Add eggs, buttermilk, onions, and oil or bacon drippings. Mix well. Drop in deep hot fat by spoonfuls and brown on all sides. Now, I said above that this makes 48, I've never counted, so I don't know for sure. But it sure does make a bunch. The main reason why I said 48 is because the program, MenuMaster, won't let you past that field unless you tell it something. Justin Wilson says, "Hush puppy is an old Southern term that originated after the Civil war. People didn't have enough for themselves to eat let alone feed their dogs, so when the old hounds started barking from hunger, they would throw pieces of fried corn bread to them, yelling, 'Shut up, dog! Hush puppy!'"

Title: Lefse  
 Categories: Breads, Christmas  
 Servings: 6

2 c Milk, scalded	1/2 c Lard
1 tb Salt	4 c Flour

Add lard, salt and 2 cups flour to scalded milk and mix well over low heat. Remove from fire. Sift 2 cups of flour on board, add warm dough and work in flour. Knead well and cool. This dough can be rolled immediately or kept in a cool place for a couple of days. May be stored in a plastic bag. Make a small patty, about hamburger size, with even sealed edges as you would for pastry. Flour board lightly and with a Scandinavian rolling pin roll patty in all directions, keeping the dough round. Roll lightly, stretching dough until it is almost as large as the lefse baker. Use pointed stick to handle dough when it is transferred from the board to the baker. Brown lightly, prick air bubbles, turn and brown other side. It may be necessary to change heat control from high to low. This is a soft bread. Serve with butter, or butter and sugar. (Note: I don't have either a Scandinavian rolling pin or a lefse baker, so I use a regular rolling pin and a griddle. This is like a Swedish tortilla! We usually spread butter and sprinkled sugar over the lefse then rolled them up and DEVoured them!)

Title: Melt-In-Your-Mouth Rolls  
 Categories: Breads, Yeast  
 Servings: 6

2 c Milk	1/4 c Shortening
1/4 c Sugar	2 ts Salt
2 pk Active dry yeast; or	2 ts Active dry yeast; bulk
1/4 c Luke-warm water; (110 deg.f)	7 c Unbleached flour; sifted
2 Eggs; lg	

Scald the milk in a saucepan. Pour over the shortening, sugar and salt in a large mixing bowl. Cool to lukewarm. Sprinkle the yeast over the lukewarm water and stir to dissolve. Add the yeast mixture, 3 cups of the flour, and eggs to the milk mixture. Beat, using an electric mixer set on medium speed, for about 2 minutes. Gradually stir in enough of the remaining flour to make a soft dough. Turn the dough out on a lightly floured surface and knead until smooth and satiny, about 8 to 10 minutes. Place the dough in a greased bowl, turning once to grease the top and cover. Let rise in a warm place until double, about 1 hour. Punch the dough down and divide the dough into thirds, then let the dough rest for 10 minutes. Divide each third into 12 pieces and shape each piece into a ball. Place 12 balls, equally spaced, in a greased 9-inch round cake pan. Repeat for the remaining two thirds. Cover and let rise until doubled, 45 to 60 minutes. Bake in a preheated 400 degree F. oven for 12 to 15 minutes or until golden brown. Remove from the pans and cool on wire racks.

2 c	Unbleached all-purpose flour	1 tb	Baking powder
2 tb	Granulated sugar	1 ts	Salt
1	Large egg	1 c	Milk
1/2 c	Vegetable oil		

Grease 12 2 1/2-inch muffin cups. Heat oven to 400 degrees F. Sift Flour, baking powder, sugar and salt into a medium-sized bowl. Stir to mix well. In a small bowl, beat egg with a fork. Add milk and oil. Add all at once to dry ingredients.

Stir mixture only until dry ingredients are moistened. Batter will be lumpy.

Drop batter from a tablespoon into prepared muffins pans, filling each cup half to two-thirds full. Bake 15 to 20 minutes, or until golden brown. Remove from pan and serve hot with butter, jam or marmalade. VARIATIONS: GINGER MUFFINS: Add 1/2 Cup finely diced candied ginger to flour mixture before adding liquid. BANANA PECAN MUFFINS: Prepare muffin batter but use only 1/2 cup milk. Add 1/2 cup chopped pecans and 1/4 t ground nutmeg to sifted flour. Add 1 cup mashed, peeled banana with the egg, milk and oil. BLUEBERRY MUFFINS: Toss 1 cup washed and well-drained fresh or frozen blueberries with sifted flour mixture before adding liquid. ORANGE MUFFINS: Cut 2 peeled navel oranges into sections. When batter is in the cups, place an orange section on top of each and sprinkle lightly with granulated sugar. CHEESE MUFFINS: Fold 1/2 cup grated sharp yellow cheese into muffin mix with the last few strokes on batter. Serve hot with scrambled eggs and bacon for a special breakfast. SURPRISE MUFFINS: Fill muffin cups 1/3rd full of batter. Drop 1/2 t of your favorite jelly in center of batter. Add batter to fill cup 2/3rds full. Kids just love these as you will. COCONUT MUFFINS: Add 1 c Shredded coconut with the last few strokes of mixing. For a snack have coconut muffins, butter and milk. CHIVE MUFFINS: Fold 1/4 cup chives into the batter during the last few strokes and serve at dinner. Great with a steak and salad.

1 pk Active dry yeast	1/4 c Warm water (110)
1 1/2 c Milk	3 tb Lard or shortening
1 1/2 ts Salt	2 tb Sugar
4 c All purpose flour	1 c whole wheat flour
1 Oil	

In a large mixing bowl, dissolve yeast in warm water. In another bowl combine milk, lard, salt and sugar. Heat to 110 degrees and add to dissolved yeast. Beat in 3 cups of the all purpose flour and all of the whole wheat flour. Add about 1/2 c all purpose flour and mix until a stiff sticky dough forms. Place dough on a floured board and knead, adding more flour as needed, until dough is smooth and nonsticky. Place dough in a greased bowl turning over to grease top. Cover and let stand at room temp. 1 hour. Punch dough down. The dough may be covered and chilled as long as overnight. Knead dough on a lightly floured board to expel air. Roll dough out, a portion at a time, to slightly less than 1/8" thick. Cut in 2"x 5" rectangles or 3" squares for appetizers. Place on lightly floured pans and lightly cover. If you work quickly you can let cut sopaipillas stay at room temp up to 5 min; otherwise, refrigerate them until all are ready to fry. In a deep wide frying pan or kettle heat 1 1/2 - 2 inches oil to 350 on a deep fat frying thermometer. Fry 2 or 3 at a time. When the bread begins to puff, gently push the bread into the hot oil several times to help it puff more evenly. Turn several times and cook just until pale gold on both sides, 1-2 minutes total. Drain on paper towels. Serve immediately or place in a warm oven until all are fried. Or if made ahead, cool, cover and chill or freeze. To reheat, bake uncovered in a 300 oven, turning once, just until warm, 5-8 min. Do not overheat or they will become hard. Makes 2 dozen large sopaipillas or about 4 dozen small ones.

Categories: Breads  
Servings: 10

1 1/2 c Active sourdough starter  
2 c Unsifted rye flour  
1/2 c Molasses  
2 ts Salt  
1/2 c whole milk  
1 pk Active dry yeast

2 tb Caraway seeds, chopped  
1/2 c Boiling black coffee  
1/4 c Dry skim milk  
3 tb Melted shortening  
2 3/4 c Unbleached flour

Pour boiling coffee over chopped caraway seeds. Let the mixture cool and then add it to the rye flour and starter which have previously been mixed well. Let stand for 4 to 8 hours in a warm place, preferably overnight. Then add the molasses, dry milk, salt, shortening, liquid milk, unbleached flour and yeast. Mix well. Cover the bowl and let rise to double. Then knead on floured board and shape into two round loaves on baking sheet. Let rise until double again and bake at 350 degrees for 30 minutes or until done.

1/4 ts Nutmeg  
1/4 c Butter

1 ts Salt  
4 Eggs; large, beaten

Sift flour, salt and nutmeg together in a bowl. Pour eggs and 1/4 cup water into middle of flour mixture, beat with a wooden spoon. Add enough water to make the dough slightly sticky, yet keeping it elastic and stiff. Using a spaetzle machine or a colander with medium holes, press the noodles into a large pot full of boiling salted water. Cook noodles in the water about 5 minutes or until they rise to the surface. Lift noodles out and drain on paper towels. Brown noodles in melted butter over low heat.

Combine cereal with hot milk in a 1-1/2 quart mixing bowl and let it stand about 10 minutes---or until the cereal has absorbed all of the milk. With the electric mixer on high speed, beat in the oil and eggs till completely blended. Remove the beaters. Switch to a sturdy spoon and dump in the cake mix, stirring only to moisten all of it thoroughly---but don't overmix or overbeat or the muffin texture will be heavy and tough. The batter will be a bit lumpy. Cover the bowl and let the batter stand 15 minutes while you preheat the oven to 400 F, and grease 12 muffin tin wells in Crisco, evenly. Divide batter equally between the 12 wells. If you are using cupcake tin wells, you will have 15 muffins.  Categories: Breads, Garlic  
 Servings: 6

	Garlic puree(2 roasted head)	1/4 lb	Unsalted butter, softened
2 tb	(2 pk) dry yeast	1/2 c	Warm water (115-120 degrees)

## BREAD500.TXT

2 1/2 c Warm water 2 tb Kosher salt  
 3 1/4 c Whole wheat flour 3 1/4 c Unbleached all purpose flour  
 Cornmeal

Cream together the garlic puree and butter. (This may be done days in advance and refrigerated. Bring to room temperature before using). Combine the yeast with 1/2 cup warm water in large bowl. Stir with a fork or small whisk. Add an additional 2 1/2 cups water. Add salt. Stir in the flour, 1 c at a time, beginning with the whole wheat. Use a whisk until the dough becomes stiff, then switch to a wooden spoon. Turn the dough onto a well floured work surface. Knead rhythmically for 10 to 15 minutes, until the dough is smooth, springy, nonsticky, and elastic. Add more flour as you knead if necessary. The dough is ready if you can poke to fingers into it and the resulting indentations spring back. Cover the dough with a cloth and let rest while you wash, dry and generously butter the bowl. Knead the dough a few more turns, then form it into a ball and place it in the bowl. Turn it to coat with butter. Cover the bowl and put it in a warm, draft-free place until the dough has doubled in bulk, about 1 1/2 hours. It has risen sufficiently when you can gently poke a finger into the dough and the hole remains. (Don't poke too enthusiastically or the dough will collapse.) When doubled, flour your fist and punch the dough down. Knead it a few times and then let it rest. Sprinkle 1 large or 2 small baking sheets with a liberal amount of cornmeal. Divide the dough into 3 equal parts. While you work with 1 piece, keep the other 2 covered. Flour your work surface. With a rolling pin, roll each piece of dough into a rectangle approximately 14-inches long X 7-inches wide. Spread it with softened garlic butter. Roll the long edge toward the opposite long edge, as if you were rolling up a rug. Pinch ends closed. Place loaves on the baking sheets. With a sharp knife or razor blade, slash the loaves lightly at 2-inch intervals. Cover with a cloth and place in a warm draft-free place to rise until doubled, about 1/2 hour. Meanwhile preheat oven to 400 degrees F. Bake for 35 to 40 minutes with a pan of boiling water on the oven floor. Spray loaves with water several times during the baking process. (This helps the bread form a thick crusty shell.) To test for doneness, rap the loaf with your knuckles. The loaf should sound hollow. Cool on wire racks, but the loaves are delicious eaten warm right out of the oven.

You'll need either one or two 12 unit muffin tins, lined with cupcake papers. Whisk the dry ingredients together, thoroughly, in a bowl and set aside. Whisk the sour cream, eggs and melted butter together until well-blended. Make a well in the dry ingredients, pour in cream/butter/egg mixture and if you're adding the corn and bacon, add them now. Using a spatula, fold the ingredients together, just until combined--DON'T OVERMIX. Spoon the mixture into the

I used the whole wheat starter and experimented with your whole wheat bread recipe in the DAK today. It turned out great. Basically, I just halved your recipe and added a few things. My DAK is a 3 cup flour model, is yours? If I'm using whole wheat or rye flour, I can add more flour because it doesn't rise as much. Also, whenever I use whole wheat, etc. I add vital wheat

gluten and lecithin to aid elasticity and to help it rise. This is what I put in the DAK and the order I used: Turn the light/dark setting to 12 o'clock and set the menu to Sweet Bread (the auto. one, not the manual one) Later, at the beeps, I added 3/4 c. pecans (didn't have walnuts on hand). I usually add large pieces since they are kind of cut up by the B/M while kneading. We can keep experimenting with this....let me know if you try it and what you add or subtract. Have you ever added raisins, oatmeal or any kind of seeds? The B/M gives me the lazy way out, and I wanted to see what it would do in it. Thanks so much for taking precious time to post the recipe. P.S. I have some of the beer s/d starter to give you when we get together, but the whole wheat starter is GREAT!. Regards, 08/21 11:14 P.M. JUDY/NC PJXG05A

NOTE: I rewrote the recipe to follow order of my machine. It works wonderfully in my Panasonic.

This bread tastes like stuffing! It is WONDERFUL!!!! Here are some hints from the book: 1. Use dried herbs that are flaked and not ground. If using ground, reduce the amt. by half. If using fresh herbs, double the recipe. 2. This recipe can be made with the regular, rapid, or delayed time bake cycles.

This recipes comes from "Bread Electric" from the Innovative Cooking Enterprises. I make the regular size loaf in my machine. Marilyn Sultar

1	tb Molasses	1/4 c	-water
1	pk Yeast	1/4 c	Nuts
1	c White flour	3/16 c	Margarine

NOTE: This recipe was resized; follow the directions for your B/M.

Because I am still so new at this \*P BB I wrote my note in the wrong place so here goes again! My bread making is improving, thanks to \*P and B M Magic! I love the book. On a trip to New England I bought bread in a town square, it was wonderful! Later I wrote the baker for the recipe and she kindly sent it. I've only tried it once (I'm new to bread making). But now I'd like to try it in my BM. (the directions follow for assembling ingredients, etc. but since I want to make it in my BM, I'm not including them.

Divide dough in two. Divide each half into 3 and make 3 ropes. Braid them and make into a circle. Attach both ends, repeat with other half.

The bread was delicious and I would appreciate any help someone can give me. Until later, Renee N.C. San Diego

Title: GAYE'S SOURDOUGH TIPS  
Categories: Breads, Breadmaker, Sourdough  
Servings: 1

From: Gaye Levy \*\* DTXT63A

You will find that your sourdough breads will have more "tang" and will rise higher in the BM if you follow this procedure:

\* Remove a cup (or more) of your starter from the fridge and bring to room temp.

\* Feed with 1 cup flour and 1 cup (or slightly less) water

\* Let the starter do its thing. It will become bubbly and foamy. watch for its 'peak'. This usually occurs 8 to 10 hours after feeding. It is best to keep the starter warm (75 to 85 degrees). If it cold out, leave it in the oven with the light turned on!

\* Make your bread during the peak...while the starter is VERY active.

\* Dump the unused starter back into the mother pot. Following this method, you can even make sourdough in the b/m without yeast. Really!

\*Variation: Separate your starter into two batches. Create a "beer" starter with one batch. You will feed this pot with flat beer and flour instead of water and flour. A very unique and delicious taste!

\* To create your own sourdough recipe:

Substitute 7/8 cup start for 1 cup liquid

Reduce flour by 1/4 to 1/2 cup

Categories: Information, Breadmaker, Breads  
Servings: 1

Diana Lewis vgwn37a

All flour is presifted but it settles during shipment. A cup of flour scooped directly from the bag can weigh up to 5 ounces. It SHOULD weigh 4 ounces. To measure correctly fluff up flour in the bag or canister. Then sprinkle it lightly with a spoon into a measuring cup, scrape the excess off the top with a knife. From King Arthur flour

Title: NO-FAT BAGELS FOR BREADMACHINE  
 Categories: Breadmaker, Breads, Low-cal, Jewish  
 Servings: 6

	-Judy Garnett pjxg05a	3 c	Flour
1 pk	Yeast	1	Egg white
3/4 c	-warm water; 110 deg	1 1/2	-water

Place yeast and flour to bread pan of machine. Add egg white and warm water. Program for Manual, white Bread and press start. Allow bread to knead two times and then remove from pan.

Shaping Bagels: Divide dough into 12 portions. Roll each piece into a smooth ball. Punch a hole in center of dough and shape like a bagel. Cover and let rise 20 minutes.

In a large pot, bring 1 gal of water to a boil. Add 3 bagels at a time and simmer for 5 minutes turning once. Drain. Beat egg white and water together lightly. Brush bagles with egg white and water glaze. For variety sprinkle with onion or garlic bits or sesame or poppy seeds/ Bake in preheated 375 deg oven 30 mins. or until brown. Makes 6.

-----LARGE (16)-----

1 1/3 c	Water	1 1/3 c	whole wheat flour
2 tb	Honey	2 2/3 c	Bread flour
2 ts	Salt	2 1/2 ts	Yeast

Set for dough cycle. Let the machine knead the dough once, and then let the dough rise for only 20 minutes in the machine. Even if your cycle runs longer, simply remove dough after 20 minutes and turn off the machine. Divide the dough into the appropriate number of pieces. Each piece should be rolled into a rope and made into a circle, pressing the ends together. You may find it necessary to wet one end slightly to help seal the ends together. Place these on a well greased baking sheet, cover and let rise only 15 to 20 minutes. Meanwhile, bring to a slight boil in a "nonaluminum pan", (Donna German uses a cast iron frying pan) about 2 inches of water. Carefully lower about 3 or 4 bagels at a time into the water, cooking for about 30 seconds on each side. Remove bagels, drain on a towel, sprinkle with poppy seeds, sesame seeds or dried onion bits if desired and place on the greased baking sheet. Bake in a preheated 550 degree oven for 8 minutes. This recipe is from Donna German's first Breadmachine Cookbook, pages 160- 161.

Title: Walnut-Onion Herb Bread  
 Categories: Breads, Breadmaker  
 Servings: 8

1 1/4 tb Active dry yeast	1/4 c Chopped fresh dill
2 tb Sugar	Or
1 c Warm water (105-115)	1 1/2 tb Dried dill
1 c Warm milk (105-115)	4 1/2 c Flour
1 Egg	1/3 c Minced white onion
2 ts Salt	2/3 c Coarsely chopped walnuts
2 tb Walnut oil or unsalted butter	

\*This recipe is for making bread in a casserole dish with no kneading. To make it in a bread machine cut liquid and flour in half. In a small bowl, sprinkle the yeast and a pinch of sugar over the warm water. Stir to dissolve and let stand until foamy, about 10 minutes. In a large bowl, combine the mild, remaining sugar, egg, salt, oil or butter, dill and 1 1/2 cups flour. Beat with a whisk or heavy duty mixer until smooth. Add the yeast mixture and remaining flour 1/2 cup at a time, beating vigorously about 2 minutes. Batter will be sticky. Cover with plastic wrap and let rise in a warm area until doubled in bulk, about 1 hour. Sprinkle the onion and walnuts over the top of the batter and stir down, beating vigorously to

evenly distribute. Turn into a well greased 3-quart casserole or souffle dish, 9-inch springform pan, or 9-inch kugel of tube mold. Cover loosely with plastic wrap and let rise in a warm area until doubled in bulk, about 30 minutes. Preheat the oven to 375 degrees. Bake in the center of the oven until the top is crusty brown, hollow when tapped and a cake tester inserted into the center comes out clean, about 45-50 minutes. Run a sharp knife around the sides of the pan and turn out of the pan onto a rack to cool right side up. Variation: add 4 ounces mozzarella cheese, cut into cubes. \*For Bread machine, dump in all ingredients and push start.

2/3 c Milk	1 tb Shortening
2/3 c Water	1 pk Yeast or 1 env. dry yeast
1 1/3 tb Sugar	3 c Flour

Dissolve yeast in a 1/4 cup of lukewarm water. Combine milk, water, sugar, salt and shortening. Stir until dissolved and lukewarm. Add yeast (dissolved in water). Sift flour (about 6 cups) only enough so you can knead it-(so it wont stick to fingers) for 10 Min.. Place in greased bowl and let rise (warm room) 1 1/2 hrs. (or until doubled in bulk) Punch down with knife and let rise again 1/2 hr. .Cut up in small pieces and roll around in hands and place in tin . (To form a small ball). Let rise for 1 1/4 hrs. (Put dough on floured board to work with). Bake in oven for 30 to 40 min at 350 degrees. Recipe from Marion Cargill of Island Pond, Vermont

Title: Herman Starter

Categories: Breads, Breadmaker

Servings: 1

-----I.E.S. JJGF65A-----

2 tb Or 2 envelopes active dry Yeast	1 c Sugar
1/4 c Warm water	2 c All purpose white flour
	2 c Milk (see note)

DAY,1: Sprinkle yeast over warm water. Add 1 tablespoon of the sugar and let stand a few minutes until yeast is active and swelling. Combine remaining sugar, flour and milk in a 4 to 6 quart glass, plastic or pottery bowl or container. (Do not use metal bowls or utensils as these may retard starter growth). With a wooden spoon, stir in active yeast mixture. Cover loosely with a towel so Herman can breathe. Let stand in a warm draft free place overnight.

DAYS,2, 3, and 4: stir daily with a wooden spoon. Keep covered. Keep cool.

DAY,5: stir in 1/2 cup sugar, 1 cup milk and 1 cup flour. Let stand 24 hours.

DAYS,6, 7, 8, and 9: stir daily with a wooden spoon.

DAY,10: Repeat DAY 5, stirring in 1/2 cup sugar, 1 cup milk and 1 cup flour.

THIS gives you enough starter to use freely in recipes and/or give away. Herman may be replenished as needed but can go no more than 5 days at room temperature between feedings. After feeding, wait 24 hours before using the renewed starter.

BREAD500.TXT

DAILY stirring helps keep yeast mold from forming.

Most directions specify that Herman not be refrigerated since cooler temperatures slow the growth and "souring" of the starter. It is, however, a safer course for busy cooks with fast growing starters. Herman also is freezer-friendly and may be kept on ice between baking impulses if you get bored.

NOTE: If desired, substitute buttermilk for milk in starter for more flavor and less fat. If more starter is needed, additions may be doubled when 2 or more cups of starter are used.....

Try substituting unsweetened applesauce for the fats called for in your bread recipes. This even works with chocolate cake! Many can't tell any difference in taste and the pectin in the applesauce keeps the bread moist longer. I buy the small Motts individual containers so I don't have a large jar going bad in the fridge. I've read that you can use up to one tablespoon of applesauce per cup of flour. If you do make this substitution hold out about 1/8 to 1/4 cup of the liquid in the recipe and add it back in a tsp. at a time during the kneading cycle.

Title: KING ARTHUR FLOUR - SOURDOUGH STARTER TIPS 1  
Categories: Information, Breads  
Servings: 1

-DEBBIE CARLSON (PHHW01A) -KING ARTHUR FLOUR HINTS

The following information comes from King Arthur Flour "A Short Course in Cooking with & Keeping the Elusive wild Yeast".

What is a Sourdough Starter? "A sourdough starter is a wild yeast living in a batter of flour and liquid. Yeasts are microscopic fungi related distantly to mushrooms. There are many varieties of these tiny organisms around us everywhere. wild yeasts are rugged individualists which can withstand the most extreme of circumstances. Some will make delicious loaves of bread; others will create yogurt and cheese out of milk; still others will turn the juices of grains and fruit into beer and wine."

"Active dry yeast, the kind we can buy in packets at our grocer's, is a domesticated descendant of these wild relatives, one which has been grown

for flavor, speed of growth and predictability. But domestic yeasts are much more fragile and can't be grown at home without eventually reverting to their original wild state."

"If you can imagine a world without any packets of active dry yeast, you can imagine how important your sourdough starter would be to you. Without it, you would be doomed to some pretty awful eating. It is no wonder that sourdough starters were treasured, fought over, and carried to all ends of the earth. To the early prospectors, it was such a valued possession (almost more than the gold they were seeking), that they slept with it on frigid winter nights to keep it from freezing. (Ironically, freezing won't kill a sourdough starter although too much heat will.)"

Fermentation (or the Microscopic Magic of Yeast): "As we mentioned above, yeast is a microscopic fungus. As it feeds on the natural sugars in grain, it multiplies and gives off carbon dioxide (just as we do when we breathe). This invisible activity of yeast is called fermentation. When you make bread with wheat, by kneading the long elastic strands of wheat protein (called gluten) into an elastic mesh, you create traps for these carbon dioxide bubbles causing the dough to expand as if it contained a million tiny balloons."

(Continued) How to Feed & Care for Your Sourdough Starter:

"Keeping a sourdough starter is somewhat like having a pet because it needs to be fed and cared for. But its requirements are simple and not time consuming. Baking with sourdough is also a simple process. All it takes is a little planning and timing. The results are so satisfying, you'll grow to treasure your invisible pet the way our ancestors did."

"When you receive your starter, refrigerate it if you don't intend to feed it immediately (at any rate, starter should be fed as soon as possible after you receive it). To feed it for the first time, snip off a corner of the plastic bag and squeeze the starter into a glass or ceramic bowl (not metal). Stir in 3 cups of lukewarm water (what feels comfortable on your wrist) and 3 cups of unbleached all-purpose flour. Mix until it's well blended and the consistency of pancake batter. Let the replenished starter sit at room temperature for at least 12 hours to give the yeast a chance to multiply and become active before you put it in the refrigerator. Ordinarily you would feed your starter when you remove some to bake with it. A good rule of thumb is to replenish it every two weeks or so, preferably because you made a wonderful loaf of sourdough bread, a stack of pancakes or a delicious sourdough cake." (This previous paragraph is for those people who have ordered King Arthur's Sourdough Starter from their catalog.)

"During the time the starter is stored in the refrigerator, it becomes relatively dormant which is why it can survive so long with so little attention. You'll find that a clear, amber colored liquid will accumulate on the surface of the starter. This liquid contains 12% to 14% alcohol."

"When yeast is in contact with air, it produces carbon dioxide; when it's not, it produces alcohol. When you blend the alcohol back into the starter, it helps produce the unique flavor you find in good sourdough breads. For milder flavor, you can pour off some of the alcohol if you wish although this will thicken the starter requiring a bit more liquid to return it to its "pancake batter" consistency. (To "sweeten" a starter in another way, see Troubleshooting which follows.) The alcohol itself

dissipates during the baking process."

(CONTINUED) Storing Your Starter:

"Once your sourdough pet is cold and relatively dormant, it can survive quite a long time between "feedings." It is certainly not as demanding as children, or more traditional pets, but it isn't happy just sitting for months on end like a packet of commercially dried yeast either." "Freezing: You may be able to ignore your starter for a month or even much longer, but if you know you're going to be away for a time, you can store it (unlike children or pets) in the freezer. You may want to transfer it to a plastic container first as it will expand as it freezes. When you are ready to use it again, give it a day to revive, feed it a good meal, give it another day to build up an armada of fresh, new wild siblings and it will be ready to go to work."

"Drying: An alternative storage method is to dry your starter by spreading it out on a piece of heavy plastic wrap or waxed paper. Once it's dry, crumble it up and put it in an airtight container. Store it some place cool, or, to be safe, in the freezer. To reactivate the dried starter, grind it into small particles with a hand cranked grinder, a blender or a food processor. Pour 1 to 1 1/2 cups of warm water (what feels comfortable on your wrist) into a glass or ceramic bowl. Stir in and dissolve a tablespoon of sugar or honey. This isn't necessary but it gives the yeast an easy "first course." Blend in an equal amount of flour and dried starter. Cover the bowl with plastic wrap and watch for small telltale bubbles which should begin to appear on the surface within a few hours. Once you see them you'll know it's alive and well. Let it continue to feed and grow for a further 12 hours before you cover and refrigerate it." How to Remove Some Starter for Baking:

"With a spoon or wire whisk, blend the liquid back into the starter and then measure out the quantity required by your recipe. Replace the amount taken with equal amounts of flour and water. Since many recipes are based on using 1 cup of starter, you would return to your starter pot, 1 cup of flour and 1 cup of water. (This actually makes 1 1/3 cups more starter but you can adjust the amount whenever you want.) As you did when you first fed your starter, let it sit at room temperature for at least 12 hours to give the yeast a chance to "feed" and multiply before you chill it again."

(CONTINUED) TROUGLESHOOTING

Feeding without Baking: "If you have been busy or away, you can always feed your starter without baking anything. Stir the mixture together, take out and discard 1 cup of starter and replenish as above, stirring in 1 cup water and 1 cup flour. (Or instead of discarding the starter you removed, ask a neighbor if he or she would be interested in adopting a starter of his/her very own.) Let the resuscitated mixture sit at room temperature for 12 hours or so before you return it to the refrigerator."

Treating a "Sluggish" starter: "If you feel that your starter is just not "up to snuff," dissolve a teaspoon of yeast in the cup of water you mix into the starter when you feed it. (If you live in an area where water is chlorinated, let some sit out overnight to allow the chlorine to dissipate to preclude any interference with the development of the sourdough micro-organisms)."

Sweetening a Starter: "If your starter becomes too sour, take out 1 cup, dispose of the remainder, and add 2 cups of each of flour and water to refreshen it."

Increasing Your Starter: "If you want to grow a large amount of starter to give some to a friend or to do a lot of baking, simply increase the amount you feed it."

Resuscitating a Neglected Starter: "If your sourdough starter has sat in the refrigerator months beyond the point of health, give it a fighting chance for survival before you throw it out. A little warmth and a good meal of strong, high energy carbohydrates may be all it needs to get it off and running again."

"The layer of liquid on the surface will probably be very dark, making it look as if the starter must surely have expired. Quell your fear, wrestle the top off the jar and give it a sniff. If it smells the way it should, though exceptionally sour, it may just be sitting there in a dormant state waiting to be fed. The only way to know is to give it a meal."

"Blend it back together and pour it into a glass or ceramic bowl. (Take this opportunity to give its jar a good wash.) As the starter will probably be quite thin, mix in 2 cups of flour and 1 cup of water to nourish and thicken it. Leave the bowl out on the counter where it will be warm and visible." (Continued)

(CONTINUED) "In a couple of hours you may see tiny bubbles appear on the surface. If so, cheer your brew on by keeping it warm and covered overnight. In the morning, celebrate by making sourdough pancakes (which you'll find ...in our "King Arthur

Flour 200th Anniversary Cookbook"). They are delicious and quick. Give the remaining starter another feeding, let it sit for 12 more hours to ensure its reawakened vigor before you tuck it back in the frig. Then quietly heave a sigh of relief and congratulate yourself on your rescue." How to Decide if You Need to Start Over (groan):

BREAD500.TXT

"If your sourdough begins to mold or develop a peculiar color or odor instead of a "clean, sour aroma," give a sigh, throw it out and, if you're patient, start again. Along with the vital yeasts, you may have inadvertently nurtured a strain of bacteria that will not be wonderful in food. This happens very infrequently so don't let this possibility dissuade you from a sourdough adventure."

Starter Variations:

"Here are some variations on the basic flour/liquid/yeast combination that will produce sourdough starters with different personalities.

\*Substitute 1 cup of stone ground whole wheat flour for 1 of the unbleached all-purpose flour.

\*For tap water, substitute water from cooking potatoes. It contains nutrients which any kind of yeast loves and along with making the yeast happy, it creates great flavor in bread.

\*Substitute buttermilk for tap water.

Title: KING ARTHUR FLOUR - VITAL WHEAT GLUTEN TIPS

Categories: Information, Breads

Servings: 1

-DEBBIE CARLSON (PHHW01A)

-KING ARTHUR FLOUR HINTS

"One of the most frequently asked questions of us here at King Arthur Flour is, 'what is gluten?' Gluten is an element of the wheat berry that contains two special proteins, gluten in and gliadin. When you are making bread, and you add liquid to the flour, you get these two proteins in business. They start to interact and form a web which traps the carbon dioxide that the yeast is giving off. This web is developed during the kneading process. Wheat is the only grain which contains gluten."

"To use gluten, we have found that adding a tablespoon for each cup of flour called for in the recipe will increase the rise in the bread from 25% to 30%. The proper way to measure the gluten is to put 1 tablespoon of the gluten in your measuring cup and then spoon the flour into the cup on top of the gluten. Level off the flour with the back of a knife."

-DEBBIE CARLSON (PHHW01A)

-KING ARTHUR FLOUR HINTS

1. Yeast Proofing: To "proof" yeast, first dissolve the sugar (about 1 Tbsp. for each 2 cups liquid) or other sweetener in warm water (about 95 degrees) and then add your yeast. Wait several minutes for it to dissolve and begin to "work", or develop tiny bubbles. If it doesn't show signs of life, discard it and try another batch. Because yeast doesn't like salt, add it after the yeast is "proofed".

2. A Better Measure: Because flour settles and compacts in storage, fluff it up before you measure. Then,

BREAD500.TXT

gently sprinkle it into your measuring cup and scrape the excess off with the back of a knife. This will insure a 4 oz. cup of flour rather than the 5 oz. you would have if you scooped it out with your cup. 3. Rest when You "Knead" It!: After 3 or 4 minutes of kneading dough, let it rest for a few minutes. The rest relaxes the dough and makes the remaining kneading easier.

4. Liquid Assets: Instead of the water your recipe calls for, try juices, bouillon, or water you've cooked vegetables in. Instead of milk, try buttermilk, yogurt, or sour cream. It can add a whole new flavor and improve nutrition.

5. Sweeteners: Even though you don't need it when making bread, a little sugar can bring out flavor, just as salt can. For added moisture, try honey, maple syrup, or regular or dark unsulphured molasses.

6. Oil for Longevity: If you don't mind a few extra calories (12 to 15) per slice (a slice of bread without fat has only 60 to 65 calories!), add a couple of tablespoons of butter or vegetable oil to your dough, and your bread will stay fresher for a longer period. 7. Storing King

Arthur Flour: If you use your flour fairly quickly, store it in a cool, dry cupboard and stick a couple of bay leaves in the bag to discourage any visitors. If you use your flour more slowly, especially your whole wheat, put it in a lock-type plastic bag and store it in your freezer. 06/30 09:22 pm LORELI Loafing and Laughing in Ocala, L

Title: SOURDOUGH STARTER AND BREAD  
Categories: Sourdough, Starter, Breads, Breadmaker  
Servings: 1

-MARY GEORGE (GVJN88B)

2 c Skim milk  
2 c Bread flour  
1 Pk Yeast

Place milk in a glass container and allow to stand at room temperature for 24 hours. Stir in flour and yeast. Leave uncovered in a warm place for 2-5 days, depending on how long it takes it to bubble and sour. If it starts to dry out, stir in enough tepid water to bring it back to the original consistency. Once it has a good sour aroma and is full of bubbles, it is ready to use. Try to maintain about 1 and 1/2 cups of starter. Each time part of the starter is used,

replenish with a mixture of equal parts milk and flour. Leave at room temperature several hours or overnight, or until it begins to fill with bubbles. Then cover and store in refrigerator. Starter is best if used at least once a week. If starter isn't, used for 2 or 3 weeks, spoon out and discard about half and replenish as described. Given attention, a starter becomes more flavorful with age. Starter can be frozen if it is not to be used for several weeks. This will slow down yeast action and should be left at room temperature for 24 hours after thawing. Sourdough Bread: 2/3 cup skim milk 1 cup sourdough starter 3 cups bread flour 2 Tbs.sugar 2 tsp. lite salt 1 & 1/2 tsp. yeast 2 Tbs. liquid Butter Buds Combine above thoroughly (using half of the flour) and let stand uncovered to ferment overnight in a warm place. Next morning, after the mixture has risen and fallen, stir down any crust that may have formed. Add the rest of the flour. When thoroughly mixed, turn out onto a board covered with a little flour so it won't stick. Shape dough into 2 loaves, put into bread pans, brush lightly with liquid Butter Buds, and let rise covered until almost doubled in size. Bake in a pre-heated 400F. oven 45-50 minutes. Note: This recipe works GREAT in a bread machine. Simply put all of the ingredients in the machine, adding the dry ingredients first. Yields: 2 loaves (24 slices)

Title: Three Cheese Bread  
Categories: Breads, Breadmaker  
Servings: 16

3/4 c Water	1/2 c Shredded Swiss Cheese
3 c Bread Flour	1/3 c Creamed Cottage Cheese
2 tb Sugar	3 tb Grated Parmesan Cheese
1 1/2 ts Salt	2 ts Regular Active Yeast
2 tb Margarine or oil	

Place ingrediants in bread pan in the order recommended by the manufacturer. Don't use the delayed timer cycle since the cheese may spoil. Bake on light crust.

NOTE: Due the differing moisture content of cheese, you may need to watch the dough ball to determine if it is too moist or too dry.

Title: Hamburger Pizza  
 Categories: Cheese, Ground beef, Breads  
 Servings: 8

-----CRUST-----

2 1/2 c Bisquick Baking Mix	2/3 c Water; Hot
1 pk Active Dry Yeast	

-----MEAT MIXTURE-----

1 lb Lean Ground Beef	2 ts Oregano Leaves
1/2 c Onion; Chopped	1/4 ts Pepper
15 oz Tomato Sauce	

-----TOPPING-----

1/2 c Green Pepper; Chopped (opt)	1 c Parmesan Cheese; Grated
2 c Mozzarella Cheese; Shredded	

Heat the oven to 425~. Mix the baking mix and yeast and stir in the hot water. Turn the dough onto a well-floured surface and knead until smooth, about 20 times. Let the dough rest a few minutes. While the dough is resting, cook and stir the meat and onion in a large skillet until the onion is tender and the meat is brown. Drain off the excess fat. Stir in the tomato sauce, oregano leaves, and pepper and set aside. Divide the dough in half. Roll each half on an ungreased baking sheet into a rectangle, 13x9" or on a pizza pan 12" in diameter. Pinch the edges to make a slight rim. Spread the meat mixture almost to the edges. Top with the green pepper and cheeses. Bake until the crust is brown and the filling is hot and bubbly, 15 to 20 minutes. Cut into squares or wedges and serve.

NOTE: If desired, you can use shredded Cheddar Cheese for the Mozzarella in the above recipe.

2 1/2 c BREAD flour	2 sm Cloves garlic; thinly sliced
1/2 ts -Salt	2 tb Rosemary*
3/4 ts Active dry yeast	3 tb Bertolli Light olive oil
1 c -Warm water	

Preheat oven to 400 degrees. Combine flour, salt, yeast and water in bowl. Blend well, turn out onto floured surface. Knead well, about 15 minutes. Place in lightly greased bowl, not buttered, cover with a damp cloth and let rise for 1-1/2 hours (until doubled in bulk). Turn dough out, punch down and knead for 5 minutes or so. Return to bowl and let rise until doubled in bulk. Punch down and turn out on lightly floured board. Roll and press out to about 1/2 inch thickness. This recipe makes about 1-12 inchers--so you can judge whether to double or reduce the recipe. Rub surface of baking (cookie) sheet with oil and transfer the dough round to the sheet. Make several indentations with the point of a knife in the dough and insert garlic slices and rosemary into indentations. Rub olive oil (pour) onto surface and gently smooth over the surface. Salt and pepper surface LIGHTLY. Bake 10-12 minutes or until just golden. Remove from oven and TAKE OUT THE GARLIC SLIVERS! You can now top the crust, freeze it, eat it the way it is, smile at it (YOU DID IT!) Remember, when you top it the crust is already 2/3 baked and will require only enough time so that the cheeses, etc. are bubbly. Formatted for MM by Norma Wrenn npxr56b

\* (don't use the crunchy kind) it looks too dry add a little more) This is the receipt that was on the BB from CELESTE BEATIE (TDFX72B). I don't deserve any credit for this wonderful bread. Celeste used the DAK Auto Bakery and I use the DAK Turbo on the turbo cycle. Turned out great. It is heavy (2 1/2 lbs.) I also used the crunchy bacon bits but I soaked them in warm water for about 30 minutes. Only had to add 2 Tbsp of water to the 1-1/4 cup. All that like this should thank CELESTE. Title: Honey wheat Bread - in a Bag  
 Categories: Breads  
 Servings: 40

-----INGREDIENTS-----

4 c All purpose flour	1/4 c Honey
3 1/4 c whole wheat flour	1/4 c Non-fat dry milk powder
2 pk Active dry yeast	2 tb Vegetable oil
2 1/2 c Warm water	1 tb Salt

DIRECTIONS: 1. Combine 1 C all purpose flour, 2 pkg yeast, 1 C warm water and 1 T honey in a 2 gal heavy duty freeze plastic bag (Ziploc Jumbo) 2. Squeeze upper part of bag to force out air. Close top of bag tightly between thumb and index finger. Rest bag on table, mix by working bag with fingers about 20 seconds or until all ingredients are completely blended. Let bag rest about 15 minutes. 3. Add remaining ingredients, except flour. 4. Mix by working bag with fingers. Add whole wheat flour; mix thoroughly. Then gradually add remaining all purpose flour until a stiff dough is formed, about 2-1/2 C or until dough pulls away from bag. 5. Turn dough out onto floured surface. Divide dough in half. Knead each half 5 minutes or until dough is smooth and elastic. Add more flour, if necessary. Cover with plastic bag. Let rest 10 minutes. 6. Flatten dough into a 12 x 7 inch rectangle. At narrow end fold corners to center to form a point. Beginning with point roll dough tightly towards you. Pinch the edges to seal. Press dough at each end to seal and fold ends under. 7. Place seam down in a greased 8-1/2 x 4-1/2 x 2-1/4 loaf pan. Repeat with second loaf. 8. Cover loosely with plastic bag and let rise in warm place 45-60 minute or until doubled. Uncover. Bake on lower rack in 400 F oven 30-35 minutes or until deep golden brown. Remove from pan immediately. Cool on rack. Makes 2 (1-3/4 lb) loaves.

----- VARIATIONS: MOUNTAIN TOP BREAD:

Brush tops with melted butter or margarine. Sprinkle with all purpose flour. Repeat with second loaf. Let rise 45-60 minutes. Before baking, carefully make a shallow cut with sharp knife down center of each loaf. Bake as directed. COUNTRY CRUST BREAD: After greasing loaf pans, coat bottoms and sides of pans with whole wheat germ, wheat bran or whole wheat flour. Shape loaves; place seam side down in prepared pans. Brush tops of loaves with vegetable oil. Sprinkle tops of loaves with 1/4 C wheat germ or whole wheat flour. Let rise and bake as directed. ICED HONEY RAISIN BREAD: For two loaves, in small bowl, mix together 1 C raisins, 1/2 C packed brown sugar and 2 tsp cinnamon. Flatten each dough piece into 12 x 7 inch rectangle and brush each piece with softened butter or margarine. Sprinkle raisin mixture on dough. Press raisins in lightly. Shape into loaves, let rise and bake as directed. when cool, frost loaves with Easy Icing. Beat until smooth 1 C powdered sugar and about 1 T hot water. PARTY BUNDT BREAD: Shape loaves as directed except do not seal ends. Pinch loaves together to form a ring. Place ring seam side up in greased 12 C bundt pan. Let rise until dough reaches top of bundt pan, about 45-60 min. Bake in 375 F oven 40-45 min. Invert immediately and cool on rack. when cool, drizzle with Honey-Nut Glaze. Stirring constantly, bring to boil 1/4 C coarsely chopped nuts, 1/4 C packed brown sugar, 1/4 C honey and 2 T butter or margarine. SOFT AND SALTY PRETZELS. Divide dough into 24 equal pieces. Roll each piece into 18 inch rope. Twist ropes into pretzel shape and place on greased baking sheets. Brush pretzels with vegetable oil and sprinkle with coarse

Title: SAVORY CORN BREAD PUDDING  
Categories: Breads, Side dish, Gourmet  
Servings: 10

-Elayne Caldwell (KVN17B)

1 c All-purpose flour  
1 1/2 c Yellow cornmeal  
1 tb Baking powder  
1 ts -Salt  
1 c Milk  
1 lg Egg  
3 tb Unsalted butter;

-melted and cooled  
4 lg Eggs  
4 c Milk  
1/2 ts Cayenne; or to taste  
14 oz Can of tomatoes; drained  
-well and chopped  
6 Scallions; chopped fine

BREAD500.TXT

Make the corn bread: In a bowl, stir together the flour, cornmeal, baking powder and salt. In a small bowl, whisk together the milk, egg and butter and stir the mixture into the cornmeal mixture, stirring until the batter is just combined. Pour the batter into a greased 8-inch square baking pan and bake the corn bread in the middle of a preheated 425 degree F. oven for 20 to 25 minutes, or until a tester comes out clean. Let the corn bread cool in the pan for 5 minutes, invert it onto a rack, and let it cool completely. Crumble the corn bread coarse into 2 shallow baking pans and toast it in the middle of a preheated 325 degree F. oven, stirring occasionally, for 30 to 35 minutes, or until it is dried and deep golden. The crumbled corn bread may be made 3 days in advance and kept in an airtight container.

In a large bowl, whisk together the eggs, milk, cayenne and salt to taste, add the crumbled corn bread, tomatoes and scallions and combine the mixture well. Divide the corn bread mixture between 2 greased 9-inch round cake pans, let it stand for 15 minutes and bake the pudding in the middle of a preheated 375 degree F. oven for 40 to 45 minutes, or until it is golden. Cut the pudding into wedges.

In large mixer bowl soften yeast in warm water. Add 2 cups flour, shortening and salt. Beat at low speed of electric mixer for 1/2 minute, scraping bowl. Beat 3 minutes at high speed. Stir in as much remaining flour as you can mix in with a spoon. Turn onto lightly floured work surface. Knead in enough remaining flour to make a moderately soft dough that is smooth and elastic.(5 minutes) Cover, let rest in a warm place about 15 minutes. Divide into 12 equal partions. Roll each between floured hands into a very smooth ball. Cover with a damp cloth, let rest 10 minutes. Using fingers, gently flatten balls. Cover, let rest 10 minutes.(keep dough pieces covered until ready to use.) On well floured surface lightly roll one piece of dough at a time into a circle 7 inches in diameter, turning dough over once. Do not stretch, puncture or crease dough(work with enough flour so dough does not stick) Place on baking sheet. Bake rounds, 2 at a time, in a 450 F oven about 3 minutes or until dough is puffed and softly set. Turn over with a spatula, bake about 2 more mintes, or until dough is light brown. Repeat with remaining dough, baking one batch before rolling the next batch. To serve, slice bread crosswise, fill pocket with desired filling Makes 12 rounds. From Avon's International cookbook.

5 c	To 6 cups bread flour aprox.	2 1/2 c	Hot water, 120 to 130 degs.
2 pk	Dry yeast		Corn meal
1 tb	Salt		Water
2 tb	Sugar		

Sprinkle the cornmeal on a non stick baking sheet. Place 4 cups of flour in large mixing bowl, add yeast, salt, and sugar. Stir until all are well blended. Pour in the hot water and beat 100 strong strokes or three minutes with mixer dough hook. Gradually work enough of the remaining flour, using fingers if necessary, 1/2 cup at a time, that the dough takes shape and no longer sticky. Sprinkle work surface with some of the remaining flour. Place dough on work surface, working in flour as you knead. Keep a dusting of flour between dough and working surface. Knead for 8 minutes by hand or with dough hook of mixer until it feels alive under your hands. Place dough in a greased bowl. Cover with plastic wrap and put in a warm place, 80 to 100 degs, until double in bulk, about 15 minutes. Punch down dough, turn it out on work surface, cut into 2 pieces. Shape each piece into a round. Place on non stick baking sheet sprinkled with corn meal. With a sharpe knife or razor slash an x on each loaf: brush with water. Place baking sheets on middle shelf of cold oven. Place a large pan of hot water on shelf below. Heat oven to 400 deg. After 1/2 hour reduce oven to 375 deg. The bread will continue to rise while oven is heating. Bake for a total of 45 minutes. (Timing starts when you turn on the oven.) Loaves should sound hollow when baked. Cool before slicing. Bread will not keep beyond a day or two, but freezes well and makes excellent toast when old.....

Title: BAGELS  
 Categories: Breads  
 Servings: 12

1 pk Active dry yeast	1 c Milk
1/3 c Warm water	1 Egg; beaten with a little
1 ts Salt	- water for glaze
4 c All-purpose flour	Coarse salt, or poppy seeds
2 tb Sugar	

Sprinkle the yeast over the warm water, stir, and let dissolve. Put the salt, flour, and 4 teaspoons of the sugar in the bowl of a food processor equipped with the dough blade. Pulse the mixture several times to mix it well. (This action aerates the ingredients. Combine the yeast mixture and milk in a measuring cup. With the motor running, pour the mixture through the feed tube. Knead until the mixture balls together and is no longer sticky, about 60 seconds. Lightly flour a large plastic bag, place the dough in it, squeeze out the air, and close the end of the bag with a twist tie. Let the dough rise until doubled, about 45 minutes. Punch it down. (At this point, the dough can be refrigerated for up to 4 days. Bring it to room temperature before proceeding.) Let the dough rest for 10 minutes. Pull off pieces of dough to form 12 2-inch balls. Poke a finger through the ball, making a hole the size of a golf ball. With your fingers, shape the bagel evenly. Put the bagels on a tray or cookie sheet, cover them with oiled plastic wrap, and let them rise until puffy, about 30 minutes. Preheat the oven to 400F. Bring 4 quarts of water to the boil in a wide pot. Add the remaining 2 tsp of sugar. Poach the bagels, 3 or 4 at a time, for 30 seconds. Turn them and poach for 30 seconds more. Remove them with a slotted spoon, let them drip briefly on a towel held under the spoon, and place them 1 inch apart on baking sheets. Brush each bagel with a little of the egg glaze. (At this point you may sprinkle on coarse salt, or poppy or sesame seeds). Bake until golden, about 15 minutes. Let cool on racks.

2 1/2 c whole-wheat flour	1 c Raisins; mixed dark & light
1 1/2 c wheat germ	2 ts Baking soda
1/3 c Brown sugar	1 7/8 c Buttermilk
1/2 ts Salt	1/3 c Molasses

Preheat oven to 325 degrees F. Grease a 9 X 5 X 3-inch pan. Combine flour, wheat germ, brown sugar, salt and raisins in a mixing bowl. Mix well. In a second mixing bowl, mix baking soda, buttermilk and molasses, using a wooden spoon. This mixture will start to bubble. Immediately mix it into the dry ingredients. Spoon the batter into the greased pan. Bake at once. The bread is done when a toothpick comes out clean, about 1 hour. Turn out of the pan and cool on a wire rack. Makes 1 loaf.

Mix the ingredients together: Heat cooking oil in a deep fryer or skillet until very hot. Put batter into a funnel (be sure to cover the spout with one finger), then, holding the funnel over the hot oil ( use extreme caution when cooking with hot oil), release some of the batter in circular motions to form one funnel cake. The funnel cake will rise quickly and expand, so be careful about how much batter you use for the first one until you get the "feel" for cooking it. Cook to a light golden brown on both sides, then remove from the oil and place on paper towels to drain.. Sprinkle with powdered sugar and serve while still warm! Title: JO GOLDENBERG'S BAGELS  
Categories: Breads  
Servings: 12

3/4 pt Warm water	1 tb Sugar
2 Envelopes dry yeast	1 Egg white; beaten
1 1/2 oz Sugar	Salt; --OR--
1/2 oz Salt	-Sesame, Poppy --OR--
3 1/2 c Bread flour	-Caraway seeds
2 qt Boiling water	- (optional)

This is the bagel recipe taught at the New York Cooking School.

PREHEAT OVEN TO 450F. Mix yeast, 1 1/2 ounces sugar and warm water. Let stand 2-or-3 minutes. Mix 2 cups flour and the salt and add to the yeast mixture. Add remaining 1 1/2 cups flour. Knead for 5 minutes, adding flour if dough sticks to the table. Bagel dough should be firm. Place dough in a clean, greased bowl. Cover and let rise until double. Bring water to a boil and add 1 tablespoon sugar. Divide dough into 12 pieces and shape each into a ball. Allow the dough to relax 3-to-4 minutes. Flatten with your palm. With your thumb, press deep into the center of the bagel and tear open with your fingers. Pull the hole open. Place bagels on a sheet and cover for about 10 minutes. Put 2-or-3 bagels at a time into simmering water for about 45 seconds, turning once. Drain and place on greased baking sheets. Brush with beaten egg white and sprinkle with salt, sesame, poppy or caraway seeds. Bake for 35 minutes, turning over when bagels are light brown. Bagels are done when they are brown and shiny. Cool on a rack. PETER KUMP - PRODIGY GUEST CHEFS COOKBOOK

Title: Herb Crusted Parmesan Bread \*  
 Categories: Breads  
 Servings: 1

-----PATTI - VDRJ67A-----  
 1 lb Loaf frozen bread dough              3 tb Parmesan cheese  
     Butter or margarine; melted              1 ts Dried chevril leaves  
     Flour                                      1/2 ts Caraway seeds

Brush frozen loaf with melted butter to prevent surface from drying. Cover and thaw at room temperature for 2-3 hours. Cut dough into thirds. On lightly floured surface, roll each portion into a long strand. Braid strands. Coil braid into a spiral on greased baking sheet. Brush with more melted butter. Sprinkle with cheese, chevril and caraway seeds. Let rise about 1 hour in warm place, until doubled. Bake at 375~ for 25-30 minutes or until golden brown. Remove from pan. Cool on rack.

VARIATIONS: Sprinkle bread with mix of 2 tbls dried minced onions, 1 tsp dried rosemary and 1/2 tsp dried thyme and 1/2 tsp marjoram.

A second variation is to mix 1/2 cup grated cheddar cheese and 1-1/2 tbls poppy seeds into the dough before rolling the strands.

Can really do almost anything you want with herbs and spices and this bread.

Title: Apricot Braid  
 Categories: Breads  
 Servings: 4

-Jo Ferry cmsj69b	17 oz Can apricot halves in
1 lb Loaf frozen dough	-heavy syrup
4 tb Margarine; softened	3/4 c Miniature marshmallows
4 tb Brown sugar	1 ts Cinnamon

Let bread dough completely thaw. On a lightly floured surface, roll thawed loaf into a rectangle approximately 14 by 8". Place rectangle of dough on a greased sheet pan. Spread with 2 tablespoons margarine and 2 tablespoons brown sugar (save remaining margarine and sugar for glaze). Drain the apricots, reserving the liquid for the glaze.

Place drained apricot halves lengthwise down center of rectangle. Sprinkle with marshmallows and cinnamon. With sharp knife or scissors, cut dough into strips lengthwise down each side of rectangle. Make strips 1" wide and 2" deep (or cut in until it almost hits the filling). Gently stretch each strip and criss-cross over filling.

Let rise in warm area until puffy, 30 to 60 minutes (see note). While rising make glaze.

For glaze, combine remaining sugar and margarine with reserved apricot syrup in a medium sauce pan. Bring to a boil. Let boil for 5 minutes. Remove from heat. Set aside. When twist has risen, bake in a preheated 350 oven for 25 minutes.

Remove from oven and brush with glaze. Return twist to oven and bake 10 to 15 minutes longer. Remove from oven, brush with additional glaze. Remove twist from sheet pan to cool on a wire rack. When cool, slice and serve.

Note: Twist can be assembled in the evening to rise in the refrigerator overnight. This enables you to quickly bake it for breakfast in the morning. Simply brush the unrisen twist with some melted margarine and cover with plastic wrap to keep from drying out while in the refrigerator. In the morning, proceed with remaining recipe instructions.

Preheat oven to 375 degrees. In a large bowl, combine cornmeal, flour, baking powder and salt. In a small bowl, stir the baking soda into the buttermilk. In another bowl, whisk together the egg, sugar to taste, and the oil, then whisk this mixture into the buttermilk mixture. Spray an 8 or 9 inch cast-iron skillet with vegetable cooking spray. Put the skillet over medium high heat. Add butter; heat until butter melts and is just starting to sizzle. Tilt the pan to coat the bottom and sides. Add buttermilk mixture to cornmeal mixture; quickly stir together, using only as many strokes as needed to combine the mixtures. Scrape the batter into the hot, buttery skillet. Immediately put the skillet into the preheated oven and bake about 25 minutes, or until cornbread is golden brown. Cut into wedges to serve. (For a decadent cornbread, substitute 1 3/4 cups sour cream for the 1 1/4 cups buttermilk.)

## BREAD500.TXT

1 ts Sugar	1/2 ts Salt
7/8 c Warm water, -@110 degrees	1 tb Garlic olive oil, -more as needed **
1/4 c Chopped herbs, -optional *	Oil and cornmeal for pan

Stir together the yeast, sugar and warm water. Let stand until foamy, about 10 minutes.

In the work bowl of a food processor fitted with the steel blade, chop the herbs. Turn off machine. Add flour and salt. Turn the machine on and off a couple of times. While the machine is running, add yeast. Process until the dough forms a ball at the side of the bowl. Add garlic, olive oil and process for 30 to 40 seconds more.

Transfer dough to a bowl that has been oiled with olive oil. Turn the dough until the entire surface has been coated with the oil. Cover bowl with a damp towel and allow to rise in a warm draft free place for 1 hour or until doubled.

Roll out on a lightly floured surface and if dough is too elastic, try tossing it from hand to hand to flatten it out. Lightly grease the pizza pan with a little oil and sprinkle with cornmeal. Place the dough on the pizza pan and trim the edges. Bake for 10 minutes @425 degrees. Remove from oven, lightly brush the crust with a little more oil and proceed with recipe.

Makes enough dough for one 12" crust.

In a very large mixing bowl, add water and yeast. Dissolve yeast. Add honey and oil. Stir well. Add flour, one cup at a time until dissolved, then add rest to make a bread dough consistency. Take dough from bowl and on floured surface, knead for about five minutes. Roll into ball and in greated bowl put into a warm oven for an hour to rise. After an hour, grease a cookie sheet and flatted dough evenly all over, make edges come up on sides. Turn oven to 350F, place dough on cookie sheet in oven for 15 minutes. Take out, add toppings and sauce, then cook for 20 more minutes at 370-375F. watch closely. If cheese browns too fast, cook longer at a lower temperature. Source: MamaLorraine, 1975.

-----IN A LARGE BOWL MIX-----  
1 pk Dry yeast 1 3/4 c Hot tap water

-----STIR UNTIL YEAST IS DISSOLVE-----  
1/2 ts salt 2 c Flour

Now with a mixer mix (if hand-held mixer) 2 minutes high speed or (if you have a regular mixer) 2 minutes medium speed.

Then add: 1 cup flour

And carefully mix high speed for one more minute.

Then add by hand kneading for 5 minutes minimum: 1 cup flour (or more if dough is too sticky) knead this until the dough is soft but easily handlable without being too sticky. Place in a bowl greased with olive oil in a warm (but turned off!) oven covered with a cloth and let the dough rise until it is doubled ~ takes about 1 1/2 hours or so.

When dough has risen punch it down and separate it into either 2 for 2 thick crust pizzas or 4 for 4 thin crust pizzas and carefully, by spinning and tossing the dough shape it into olive oil greased (lightly) pans. Be careful you don't toss it too high!

Place on top your favorite sauce and fixings and bake for 20 minutes or until edges look done (baking time depends on the oven) at 375 f

HAND METHOD:

mixture, stirring once to blend and let sit for 5 minutes until the top is bubbly and the yeast has bloomed. Stir in the remaining warm water and the oil. Place the flour in a large bowl and add the water and oil mixture to it. Stir, adding enough flour to make a soft dough that will pull away from the sides of the bowl. If it is too dry, add a little water a tbls at a time.

Turn the dough out on a well-floured work surface, sprinkle the top with a little additional flour. Knead until it become very springy, elastic and very smooth. It should be light in weight, if it is heavy, you have use too much flour and it will not raise properly.

Form into a smooth ball and let rest on the work surface while you wash and clean the large bowl. Spray with a non-stick spray. Put the ball of dough into the bowl and turn it over to get some of the spray on the top. Cover with plastic wrap or a warm, damp, clean dishtowel. Let the dough rise in a warm, draft free place until double in volume, about 1 1/2 to 2 hours.

If the dough rises before you are ready, punch it down in the bowl by kneading making sure all of the air is gone. Turn it over and reshape it into a ball and let rise again. If the top is dry, use a little olive oil to grease it. You can punch the dough down and cover the bowl and keep the dough refrigerated for up to two days before letting it rise at room temperature.

For a thin, crisp pizza crust punch the dough down and turn out and spread over a pizza pan or baking sheet or a bakers peel. Cover with filling and topping, baking at once.

For thicker, softer pizza crust punch the dough down and turn out shaping as above and then cover lightly with a clean dishtowel. Let rise about 30 minutes before covering with filling and topping.

Makes enough dough for one 12 to 14 inch round pizza, two 7 to 8- inch round pizzas or one oblong pizza, or one dozen appetizer-sized pizzas.

-Deborah Seckinger GDJF29B	2 tb Dry yeast
1 tb Ginger	2 c Milk
1/2 c Honey;or brown sugar	1 c Whole wheat flour
1/3 c Warm water	1 c Flour white;or unbleached

Sprinkle ginger and 1 T honey or brown sugar over warm water. Sprinkle yeast over this and stir. Let stand in warm place about 10 minutes till doubled in size. Mix milk, rest of honey or brown sugar, flours into yeast mixture in a glass container about the size of a gallon pyrex jar. Stir, using only a wooden spoon, since metal objects will retard herman's growth. Leave the cover on lossely or place a glass plate over the top of the container. So Herman can breathe. Herman doubles, enen tripples at time of vigorous rising. Place Herman in a warm place overnight. Next day refridgerate, Lossely covered and stir each day. This is very important with wheat and honey starter as more gasses form in the container and are released during stirring. Formation of this gas may cause the starter to appear darker on the top than on the bottom. But this is okay. On the 5 th day measure out 1 cup herman for baking and another to give to a friend if you wish. Then feed what herman you have left thusly: FEEDING HERMAN 1/2 CUP WHOLE WHEAT 1/2 C WHITE FLOUR 1 C MILK 1/4 C HONEY;OR BROWN SUGAR 1/4 T GINGER STIR WELL KEEP IN FRIDGE Formatted by Diana Lewis

1 c Warm water,	

## -----BREAD-----

1 c Starter,	1/4 c Sugar
1 1/2 c Lukewarm water	1/2 c Oil,
1 ts Salt,	6 c Flour

STARTER: Dissolve yeast in 1/2 C. of warm water. Add remaining ingred. and stir well. Place in glass jar, covered loosely with foil, plastic wrap, etc. (to allow for gas expansion). Keep at room temperature for 24 hrs. Then place starter in frig. for 3-5 days. Feed: After starter has been refrigerated 3-5 days, take out and feed it above mixture. Let stand out (loosely covered) all day (8-10 hrs.). Take out 1 C. to use in making bread and return remaining starter to frig. Keep refrigerated from 3-5 days; feed again. After feeding, take out 1 C. to use in making bread, or give 1 C. to a friend, or throw 1 C. away. Starter must be fed again in 3-5 days. Bread: Mix first 5 ingred. together. Add in flour 1 C. at a time until thoroughly mixed. Knead until good "elastic" consistency, but don't over knead. Place approx. 2 Tbl. oil in bottom of large bowl; turn dough over so oiled side is facing up. Cover with dish towel; let rise until double - about 8-10 hrs. Punch down, knead again only a few times, mixing in flour until good consistency. Divide dough in half, shape into loaves. Place in ungreased loaf pans; let rise again (4-6 hrs.). Bake @ 350 for 25-35 min. until golden brown and loaves sound hollow when tapped. Cinnamon Bread: Before placing dough in loaf pans to rise, roll out, brush with melted butter, sprinkle with cinnamon and sugar. Roll up and place in loaf pan to rise. This is a great recipe - I've enjoyed it for years! Your starter should bubble a little after it has set out for the day (before you feed it). If not, I have added yeast to the warm water of the "feed" and added it in and the starter has recovered just fine! Enjoy! And let me know how you like it! Don in Arlington, TX 8/28

Pats comments.... "This bread is really good. It can be used on the timer. On my Panasonic I use the regular cycle, but with the light crust due to all the juices in it. Makes a beautiful high rising loaf with a warm cinnamon color. Definitely use the vital gluten as it rises much better. I use frozen apple juice concentrate. You could also add raisins or chopped apples, either fresh or dried, or even nuts might be nice. Fits MCD beautifully, don't you think?!"

1 c Flour, all purpose	2 c Buttermilk
1 ts Baking soda	1 ts Orange rind, grated
1/2 ts Salt	

In large bowl, stir together whole wheat and all-purpose flours, baking soda, salt and nutmeg. Make a well in centre; add buttermilk and orange rind. Mix just until dough is soft but not sticky. Turn dough out onto lightly floured surface. Knead 10 times. Put dough into greased 8 x 4 in (1.5 L) loaf pan. Bake in 350F (180C) oven 20 minutes. Reduce temperature to 300F (150C); bake 25 to 30 minutes longer or until a cake tester inserted in centre of loaf comes out clean. Turn out onto wire rack.

Title: Frances Cook's Bread & Rolls  
 Categories: Breads, Londontowne  
 Servings: 24

3/4 c	Milk	1	Fresh cake yeast
1/4 c	Sugar	3 tb	Shortening
1 ts	Salt	1	Egg
3 1/2 c	Flour	1/4 c	Lukewarm water

Scald milk and pour over sugar, shortening, & salt. Let it cool to lukewarm while softening yeast in a small bowl with the warm water. When soft, add the egg and beat together slightly. Pour the yeast/egg mixture into the milk mixture and stir them together.¶

The flour may be sifted or poured into the liquid. With a large spoon, stir until flour/milk is well mixed. You should have a firm, but not stiff dough. Without removing it from the bowl, cover the dough with a plate or towel and set aside to rise until double in bulk (about 2 hrs depending on the temperature in the kitchen). Instead of letting the dough rise at this point you may put it in the refrigerator and use it later, or the next day. Watch to make sure it doesn't spill out of the bowl. If it starts to spill before you're ready to use it, punch it back down. Refrigerated dough is easier to handle but takes longer to rise.¶

BREAD: If you want to make bread, dump the dough out of the bowl onto a floured surface and with more flour as needed to keep it from sticking, knead it until springy and easy to handle. This dough does not require a lot of kneading; only enough to make it easy to handle. For 2 medium size loaves cut the dough in half and knead/shape each into loaves and put into greased baking pans. Allow about 2 hours for the dough to double again. Bake in a 375 degree oven until lightly browned on top (if uncertain whether or not bread is done, tip out of pan and see if bottom is browned too).¶

ROLLS: To make rolls, work and knead dough until springy and easily handled. Roll out with a rolling pin and cut with a biscuit cutter and fold over and place on a greased cookie sheet (Parkerhouse rolls), or break dough into small pieces, make into little balls and place 3 in each section of a greased muffin pan (Cloverleaf rolls).¶

SWEET ROLLS: For Christmas bread or sweet rolls, roll out dough as for Parkerhouse rolls, except trying to make an oblong instead of a round. Spread it with raisins and sprinkle with cinnamon and sugar. Dot with butter and roll as for a jelly roll. Slice and place on a greased pan or make into a circle and make slashes through the dough at intervals. Let rise and bake as for loaves. Top with an icing made of confectioners' sugar, melted butter, milk, and vanilla or rum flavoring and drizzle over the bread or rolls while hot. Decorate with nuts or fruits.¶

If you want to make a whole wheat bread, use half white and half whole wheat flour, and use brown sugar instead of white. The amounts above will

yield 1 large or 2 medium loaves of bread, or 2 dozen large rolls.[]  
Mrs. Harold T. Cook

Title: Truly Yeast Bread (gluten Free)  
 Categories: Celiac, Breads  
 Servings: 6

3 c	GF Flour Mix (recipe -follows)	1/2 c	Lukewarm water
1/4 c	Sugar	1 1/2	Yeast cakes, or 1 1/2 -tablespoons yeast granules
3 1/2 ts	Xanthan gum	1/4 c	Shortening
2/3 c	Dry milk powder	1 1/4 c	Water
1 1/2 ts	Salt	1 ts	Vinegar
2 ts	Sugar	3	Eggs

It is not easy to turn out a yeast bread recipe without wheat that smells, slices and tastes like wheat bread. This recipe is adapted from the nutrition dept. of the Univ. of Washington School of Medicine.

Combine flour, sugar, xanthan gum, milk powder, and salt in bowl of heavy duty mixer. Use your strongest beaters.

Dissolve the 2 teaspoons of sugar in the 1/2 cup of lukewarm water and mix in the yeast. Set aside while you combine the shortening and 1 1/4 cups water in saucepan and heat until shortening melts.

Turn mixer on low. Blend dry ingredients and slowly add shortening and water mixture and the vinegar. Blend, then add the eggs. This mixture should feel slightly warm.

Pour the yeast mixture into the ingredients in the bowl and beat at highest speed for 2 minutes.

Place mixing bowl in a warm place, cover with plastic wrap and a towel, and let the dough rise approximately 1 to 1 1/2 hours or until doubled. Return to mixer and beat on high for 3 minutes. Spoon the dough into 3 small (2 1/2" x 5") greased loaf pans or 1 large one. Use muffin tins and bake any remaining as small rolls. Or make all rolls (approximately 18).

Let rise until the dough is slightly above the top of pan. Bake in preheated 400 degree oven for 10 minutes. Place foil over bread and bake large loaves 50 minutes longer, small loaves slightly less time, and rolls about 25 minutes.

NOTES: The dough texture will seem more like cookie dough than bread dough, so don't be alarmed. Bread is better when baked in small loaf pans and delicious in rolls. I have successfully doubled the recipe to turn out 2 large loaves plus 18 rolls in the muffin tins or 3 small 2 1/2" x 5" loaves plus 24 rolls. This bread freezes well. For convenience, slice before freezing. This bread may be made with either brown or white rice flour in the GF flour mix.

GF flour mix: 2 parts white rice flour 2/3 part potato starch flour 1/3 part tapioca flour

Source: The Gluten-Free Gourmet by Bette Hagman

NOTE: The book says xanthan gum is necessary for all yeast recipes to help make the breads springy and chewy. It helps to replace the gluten the rice and potato flours lack.

2 c	Flour	2	Eggs; slightly beaten
1/2 c	Uncooked oatmeal -(not instant)	2/3 c	Milk
1 tb	Baking powder	5 1/2 tb	Butter; melted

PREHEAT OVEN TO 400F. Either grease the muffin pans or line them with paper baking cups. Using the small side of the grater, grate the rind from the oranges, removing only the bright orange part, and set aside. With a small, sharp knife, remove all the remaining peel and, if necessary, trim the oranges all around so that the slices will fit into the bottom of your muffin pans. Cut the oranges into slices about 1/4-inch thick, pick out all the seeds and set the slices aside. Put about 1 teaspoon honey in the bottom of each muffin cup, and place an orange slice on top. Combine the flour, oatmeal, baking powder, salt and sugar in a large mixing bowl, and stir with a fork or wire whisk to mix. Add the reserved grated orange rind, the eggs, milk, and melted butter, and stir just until mixed. Spoon the batter over the orange slices, filling each cup about 2/3 full. Bake for 15-to-20 minutes, or until a toothpick inserted in the center of a muffin comes out clean. Remove from the oven and serve warm.

3 1/2 c Oats; quick	1/2 c Shortening
1 ts -salt	1/2 c -water ,approx.
2 tb Flour	

Combine the oats, salt and flour. Cut in the shortening and add enough water to dampen and form a ball. (A food processor does the work in a jiffy). Leave to swell for ten minutes. Divide the dough and roll each part to 1/8" thickness; slide onto ungreased cookie sheet, indent in squares with a pastry wheel or knife. Bake in 350F for about 1/2 hour but watch that they don't turn brown. Sweet oatcake: Add 1 cup sugar to recipe. Anne's note: That recipe is labelled "Bannock" in the title in cookbook but it far more a non sweet oatcake in the tradition of walker's oatcakes (it appears as "oatcakes" in the book's index. Title: PASTA DOUGH (Manual Pasta Machines ONLY)  
 Categories: Italian, Breads  
 Servings: 1

2 1/3 c	All purpose flour	2 lg	Eggs
	(for better pasta, use	1 tb	Olive oil
1 1/3 c	AP flour and	1/2 ts	Salt
1 c	Semolina flour)	1/3 c	Water

Mix 2 cups flour and salt in bowl, reserve 1/3 cup for later. Make a well in the center Mix eggs, olive oil and water and pour into well. Stir flour into egg mixture until dough forms into a ball. Turn out onto floured surface and knead for about 10 minutes, adding extra flour if too moist. Knead until dough is smooth and elastic. Cover with towel and rest for 30 minutes. Cut into 4 portions, keep pieces covered until used.

Get out your machine and set dial on widest setting (1 on the Atlas). Flatten dough ball and run through rollers several times until smooth (you may add a bit of flour here too). Move rollers to next setting and roll again once. Continue to roll until pasta is the proper thickness (5 or 6 on the Atlas). You may cut sheet in half if it's too long. Continue with other pieces and then put the finished sheet aside to dry for about 3 minutes. Attach desired pasta cutters and run the sheets through.

You can use right away or spread out the pasta to dry overnight and then freeze extra.

To cook, drop into large pot of boiling water with a bit of salt and oil. Cook until al dente, which should only take about 2 minutes for fresh.

A tip - be sure the dough is fairly dry, otherwise it won't cut into separate strands.

Another tip - You can substitute heavy cream for the 1/3 c water for a richer pasta. Great for fettuchini alfredo.

5 1/2 c	Unsifted flour	(120 to 130 degrees)
1 tb	Salt	Cornmeal
1 tb	Sugat	Corn or other vegetable oil
1 tb	Butter or margerine	1 Egg white
2	Pkgs active dry yeast	1 tb Cold water
1 3/4 c	Very warm tap water	

With the metal blade in place, add 3 cups flour, salt, sugar, butter and yeast to bowl of processor. Turn machine on and off rapidly 2 or 3 times or until butter is thoroughly cut into dry ingredients. Add half the water and turn processor on and off 4 times. Add 1 1/2 cups flour and remaining water. Repeat on/off turns 4 times, then let processor run until a ball of dough forms on the blades. If the dough is too sticky (wet), add remaining flour a few tablespoons at a time. When correct consistency, let processor run 40 to 60 seconds to knead dough.

Turn dough out onto a lightly floured board and knead several times to form a smooth ball. Cover with plastic wrap and a towel. Let rest 20 minutes. Divide dough in half. Roll each half into an oblong 15 x 10 inches. Beginning at wide side, roll tightly Pinch seam to seal and taper ends by rolling gently back and forth. Place on greased baking sheets sprinkled with cornmeal. Brush dough with corn oil. Cover loosely with plastic wrap. Refrigerate 2 to 24 hours.

1	Recipe buttermilk biscuits	Dash garlic & onion
1/2 c	Parmesan	Powder, black pepper
1 tb	Basil	

There's a bakery near me called Aunt Mary's (are you listening, Sallie?) and they have the most wonderful basil-parmesan scones. One day I experimented and was pleased to find a pretty good facsimile.

Just add the above ingredients along with all the other dry ingredients and proceed as above. These are a nice change of pace from Italian or garlic bread. Or cut with smaller cutter and serve as appetizer (don't forget to reduce baking time if smaller).

1/2 c Butter	

## BREAD500.TXT

Preheat the oven to 400F. Sift together the flour, sugar, salt, and baking soda into a bowl or food processor. Cut in the butter. Add the sour cream and Creole Seasoning (see recipe for Creole Seasoning), and mix to a soft dough. Roll out paper-thin on a floured board. Cut into 1-1/2 inch squares. Sprinkle with kosher salt and place on an ungreased baking sheet. Bake for 5-8 minutes. Turn off the heat and allow the bread to crisp in the oven. Nathalie Dupree describes this recipe in her book "New Southern Cooking" this way; "This crisp, cracker-like bread is good just flavored with salt and sour cream. But add creole Seasoning and you'll have a hot and spicy appetizer that will leave your guests begging for the recipe." It's nice to keep a big airtight cookie jar full of these for snacking."

 Servings: 48

2 1/2 c Yellow Corn Meal	1 tb Baking Powder
1 ts Soda	1 Egg, beaten
1 ts Salt	2 c Buttermilk
2 tb Granulated Sugar	1 1/2 c Cooking Oil (about)
2 tb All-Purpose Flour	

Mix all dry ingredients; beat milk and egg together and combine with dry ingredients; batter should hold its shape when picked up in spoon. If it is too soft, add more cornmeal. Drop by molded Tablespoon into 350°F fat and cook about 1 1/2 minutes; turn and cook on second side 1 minute. Allow oil to heat a few seconds after removing a batch. Delicious freshly cooked and hot; however, leftover hush puppies freeze well. When ready to serve frozen hush puppies, place on oven rack in preheated 250°F until very hot and crisp. Makes about 48 hush puppies 2" round. Hints on frying: Using a small diameter heavy saucepan allows using a minimum oil; a 5 or 6 inch pan with oil 1 1/2 inches deep and heated to 350°F will cook three hush puppies in about 2 1/2 minutes. When batter consistency is correct and oil is at 350°F, hush puppies will become firm, round shapes almost as soon as they enter the hot oil. If they are cooked in oil that is too hot, they will not cook in the center. Serving suggestions: Especially good served with fried catfish, trout, shrimp, oysters, chicken or chicken-fried steak. 1 ts	Baking soda	2 c	Buttermilk
1 ts	Salt	1/3 c	Bacon drippings or Crisco

Preheat oven to 450 degrees F. Place bacon drippings or Crisco in 9-inch cast iron skillet. Heat skillet in oven until fat is smoking hot, while preparing batter. (This should take no more than 5-10 minutes.) Thoroughly combine cornmeal, baking soda, and salt in medium bowl. Add eggs and buttermilk all at once. Blend thoroughly, using wire whisk. Slowly pour all but 1 tablespoon of hot fat into batter, continuing to beat quickly with whisk to incorporate fat. Turn skillet around to coat sides and bottom thoroughly with remaining fat. Pour batter into skillet. Bake on top rack of oven for 25-30 minutes, or until top of cornbread is firm. Turn cornbread onto plate and slip back into skillet upside-down. Return to oven for 5 minutes. Turn out onto rack, cut into 6 wedges and serve immediately.
